## TURKS MAY GIVE BRITISH ULTIMATUM

England and France Unable To Agree On Policy Toward Dardanelles

Constantinople, Sept. 22.—In Allied diplomatic circles it is reported that the Turkish Nationalists are on the point of issuing an ultimatum to the Allies, demanding the evacuation of Thrace in 48 hours.

London, Sept. 22.—The conference between Premier Poincaré of France and Lord Curzon of England was renewed today. It is believed instructions have been sent to the British foreign secretary to inform Poincaré in the most emphatic way that Great Britain is determined to preserve the Dardanelles straits under Turkish control. At the same time special efforts will be continued to win Rumania and Jugo-Slavia to the British point of view, especially since these powers apparently are hesitating whether to favor the British or the French side in some quarters it was even declared that Lord Curzon's instructions amounted practically to defying France to support the Turks with the intimation that inasmuch as France and Italy had already signed a half-hearted agreement with the Kemalists, it was not good taste for them to insist that Great Britain fall in line with their policy.

## French Want to Prevent War

Paris, Sept. 22.—The French cabinet today decided in view of the refusal of the British to withdraw their forces from Chanak, on the Asiatic side of the Dardanelles, an effort would be directed toward preventing war between Turkey and Great Britain.

## BIGGEST MOONSHINE RAID ON RECORD

Ashland, Sept. 22.—Two hundred and sixty gallons of corn liquor uncured in a corn field near the home of Henry Yates on Shopes creek, not far from the Midland Trail, is the biggest moonshine haul in the state. Put up in one-gallon jugs, five-gallon jugs and ten-gallon jugs, it took federal prohibition agents and county officials three hours and a half to load the booze on a five-ton truck.

Discovering the whisky buried beneath a layer of coffee sacks and earth in ditches ranging from 50 to 100 feet in length between rows of corn, members of the raiding party are unanimous in declaring that never before have any of them heard of such a quantity confiscated at one time. No arrests were made. Yates disappeared as the raiders approached the whisky cache. A warrant was issued for him.

## LONG TOM SELLS FARM AT \$194

Long Tom Chenault made another fine sale Thursday when he cried the farm of Mrs. T. J. Millon at public sale. The land was first sold in lots of four and was run up as high as \$245 an acre. Then the farm was put up as a whole, which made 107 acres in the tract, and was knocked off to Omar Grey at \$194 an acre. This was considered a splendid figure and it is understood the sale was a most satisfactory one in every way to all concerned.

## First Wedding is Held In New State Capitol

Frankfort, Sept. 23.—With prominent State officials as witnesses, Miss Claudia Woosley and Milton Basha, both of Louisville, were married in the State reception room of the new Capitol. The wedding was the first ever held in the new building.

## FALL FESTIVAL AT 1ST CHRISTIAN CHURCH

All the forces of the First Christian Church are making plans for the two weeks revival to begin on October 15. Dr. Robert N. Simpson of the First Christian Church, Birmingham, Alabama will lead in this meeting. Dr. Simpson is very well known in Kentucky, having been educated in Lexington and later having held a pastorate at Harrodsburg. He is widely known throughout the country in special addresses and is one of the most outstanding men of the Disciples of Christ in the South. Dr. Simpson has done a great work in Birmingham, not only as a minister in his own church but as one of the most effective leaders in the life of that great city. His friends here believe that his coming to Richmond will mean a great blessing not only to the First Christian church but to all the churches of the community.

## DEMONSTRATION OF MAJESTIC IS GREAT

This has been the banner week of all demonstrations ever held at Muncey Bros' furniture store. The Majestic factory sent Mr. J. T. Cooper to Richmond to take charge of the demonstration and through his many novel entertainments in introducing this king of all ranges, it has afforded the people of Madison county one of pleasure.

On Tuesday he baked a large cake in the oven of the Majestic and in the afternoon the ladies were invited to come in and help eat it. Just before cutting the cake 10 ladies stood on a plank placed on the cake and though their combined weight was near 1500 pounds, when they stepped off the plank, the cake was again placed in the oven and rose to its natural height, proving that the Majestic, like truth, crushed to earth would raise again. A silver dime had been placed in the cake and when it was sliced, the one finding the dime was awarded a beautiful set of cooking ware. Miss Carrie Farley proved the lucky one and took home with her the beautiful set of copper ware. Souvenirs have been given to the children all during the week, and Mr. Cooper says that he still has a number of these to give the kids for the next few days.

It has also been a successful week from the point of salesmanship. Thursday six orders for the Majestic were closed and each day since the demonstration started, the trucks have been busy carrying Majestics to all sections of the county. Mr. Muncey is to be complimented on having been able to secure the selling rights for such a popular stove, which is known the world over.

The demonstration will continue awhile longer and you are especially invited to come in and enjoy this wonderful event. Saturday one of Madison county's famous cooks will bake hot butter biscuits and French drip coffee to every lad visiting the store.

## CLARK GRAND JURY INDICTS MRS. RENAKER

Sensation Sprung In Winchester Murder Case—Hardman and Fox Also Accused

Mrs. Renaker On \$5,000 Bail (By Associated Press) Winchester, Ky., Sept. 22.—Mrs. Nancy Katherine Renaker, indicted yesterday on a charge of complicity in the murder of her husband, Leon Renaker, at his home here last July, was admitted to bail in the sum of \$5,000 today. Reese Fox, also indicted on the same charge, was released in the same amount. Scooby Hardman, the third person charged with Renaker's murder, will have a hearing next Monday on his application for bail. Mrs. Renaker refused today to make a statement.

## Fox's Grandfather Dies

Lexington, Ky., Sept. 22.—At about the hour when Reese Fox was being held in Winchester on \$5,000 bail to answer the indictment charging participation in the murder of Leon Renaker, his grandfather, James Fox, 77, died here today. Reese Fox probably will receive considerable money as his grandfather was wealthy.

Winchester, Ky., Sept. 22.—Mrs. Nancy Katherine Renaker, widow of Leon Renaker, prominent Winchester business man, who was slain at his home some time between the night of July 24 and noon of July 26, was indicted with Scooby Hardman and Reese Fox on a charge of conspiracy in the murder.

Renaker carried insurance of more than \$50,000 in favor of Mrs. Renaker. She could not be located last night for a statement. She has been staying with her father, Charles Quisenberry, since the murder. Hardman at his examining trial in connection with the murder, was held to the grand jury without bond. Fox, at his examining trial, was held to the grand jury and released on \$5,000 bond.

L. C. Aldridge, circuit clerk, said Thursday night that bench warrants for the three indicted would be issued Friday and turned over to the sheriff to be served.

The date of the murder was fixed as July 25 in the indictment. Court officials declined to make public information on which the conspiracy indictment was found. Mrs. Renaker is 32 years old. Her husband was 36.

Members of the grand jury which returned the three indictments in connection with the Renaker murder were Houston Beall, foreman; Phelps Renick, E. R. Jones, E. C. Ramsey, E. R. Wade, J. T. Kennedy, Daniel Luman, Asa Brooks, John W. Swope, Sr., K. P. Hadden, Edward Thomas and C. B. Gray.

Renaker was found dead on his bed at his home here by Mrs. Renaker upon her return from a visit with relatives of her husband in Cincinnati July 26. His head had been crushed with a blunt instrument and he evidently had been dead for a number of hours.

Rewards totalling more than \$7,500 were offered by the state, citizens of Winchester and relatives of the slain merchant and a searching inquiry into all phases of the case begun.

Hardman first was arrested in connection with the case. A warrant charging him with conspiracy in the murder was sworn to by Walter Renaker, of Cincinnati, a brother of the slain man.

The arrest of Fox was made on a similar warrant, also sworn to by Walter Renaker. Fox was arrested during the examining trial of Hardman and following the testimony of Hardin Smith, a ferryman at Boonesboro, on the Kentucky river, who stated that he recognized Fox and Hardman as passengers of an automobile that crossed the river on the night the murder is believed to have occurred.

## Burglar Took Wife, Too

Beaumont, Tex., Sept. 22.—Ramen Oledaries, a Mexican, today reported to the Mexican consulate here that a burglar robbed him of \$185, his wife and four-year-old daughter.

## Says Angel Told Her Not To Wed Any Man

(By Associated Press) Louisville, Ky., Sept. 22.—Mrs. Myrtle J. Trauber, whose husband sued for divorce, charging she belonged to a religious cult opposed to marriage, today denied the charge in her husband's petition. She said during a serious illness three years ago an angel came to her and "directed I be married to no man, as there were larger things for me to do."

## NO RIGHT TO SEARCH TRAVELER ON HIGHWAY

(By Associated Press) Frankfort, Ky., Sept. 22.—The right of officers to search without warrant the person or the personal baggage of travelers on a public highway, who are under suspicion of transporting liquor, was denied today by the Court of Appeals.

## FORD TO GET COAL FROM KENTUCKY

(By Associated Press) Detroit, Mich., Sept. 22.—An order for coal for the Ford Motor Company of Detroit, was signed here today with a Cincinnati corporation. The price to be paid and tonnage called for were not stated, but a representative of the company said it had the necessary coal and would handle it from Kentucky and West Virginia mines.

## Spens Coal Distributor

Washington, Sept. 22.—Conrad E. Spens, vice president of the Burlington railroad, was today appointed federal fuel distributor under the coal and anti-profiteering plan.

## Discussing Settlement Of Strike On C. & O.

(By Associated Press) Richmond, Va., Sept. 22.—Discussion of a basis for settlement of the shopmen's strike on the Chesapeake and Ohio railroad was started here today between General Manager Parrish and President Stewart of the system's shop federation. The negotiations were opened after the shop crafts executive committee tentatively decided to break with the brotherhood of railway clerks which it had supported up to this time.

## Another Louisville Rumor

(By Associated Press) Louisville, Ky., Sept. 22.—A rumor spread through Louisville like wildfire today that J. L. Asher, federal prohibition agent, had been shot and killed by runners. Telephone calls elicited from Mrs. Asher that her husband was at home asleep.

## Discounts Kentuckian's Claims

(By Associated Press) Mineola, N. Y., Sept. 22.—The physician who examined the body of Miss Edith Lavoy, school teacher, after she had been shot, declared today at the trial of William Creasy, of Fort Thomas, Ky., that her wound was not self-inflicted. Creasy claimed upon his arrest that she shot herself.

## Dr. Vaught Stricken in Clark

Winchester, Sept. 23.—Dr. J. C. Vaught, of South Main street suffered a partial stroke of paralysis in the left side on Tuesday evening shortly after eating his supper. For sometime his speech was affected, but on Wednesday his condition was considerably improved. He is not out of danger. Attending physicians state that they are hopeful for his recovery.

## MADISON PREPARING FOR STANFORD HIGH

Big Squad Out For Practice And Boys Are Working Hard For Place on Eleven

The Madison High school football gridiron squad had their first scrimmage in practice on Normal field Thursday afternoon. The boys have their hearts set on starting off the season with a victory over Stanford Hi next Friday, the 29th. The Lincoln county lads always play fast football and it is a certainty they will prove tough nuts to crack when the whistle blows for the opening of the season here at that time.

Coach Lassiter put the boys thro some very careful work on Thursday. There are about 20 out in uniform and all are working hard for a position, so Lassiter is playing the same steady selecting the eleven he will send on the field when the first whistle blows. In the scrimmage, some of the boys showed that they have not gotten real hardened as yet. They went at it hammer and tongs however, and apparently have the grit all the way through.

A pretty fair line is being secured on the individual abilities of the players. Two or three big fair to develop into outstanding stars, if they continue at the gait they have started. John Farley, at tackle, is attracting notice by his hard tackling and all round good work. At center, Capt. Allman is playing the same steady game which won him much attention last season. Wells and Centry are showing up well at the guard positions and may win regular berths there. However, Bower is doing some good work and is going to make 'em all hustle for a regular position. Bower is also under study for Allman at center and is a good man to have in uniform. At tackle Boen, Adams, Farley are showing up in fine shape. Adams, who is some times tried at end, was a star of the Dodge kid team last season and he is showing in fast company that he still has the goods. The wings also have two fine prospects in Bill Terrill and J. Ailman, both of whom are showing well. Terrill is a very fast man and the forward passing game with Clouse and Terrill working is already beginning to look mighty promising. Two other youngsters who are showing as splendid prospects for line work are Carson and Rymel.

Behind the line Coach Lassiter seems to have a strong lot of material. At quarter Huguey and Sausley have both been used so far. Huguey has the weight and looks good. Sausley while light is said to have shown up well with his broken-field running of the ball. Jones and Reeves with one of the others will probably start at half back. Reeves is a powerful smasher and Jones looks better every day. Then Spicer and Martin, who did not work on Thursday because of slight injuries, are good backfield material. At fullback, Madison may develop a real star. Clouse is playing a good game and his forward passing will undoubtedly make a lot of scores for Madison if handled properly. He gets better with it right along.

Taken all in all, it seems that Coach Lassiter has fully 50 per cent a more promising lot of material than last season began with. With only one high school football team, Richmond is going to be much interested in its success and everybody is pulling for a real team and victory right from the jump.

Mr. Neal was brought to Richmond Thursday, accompanied by his wife and 12-year-old daughter, the only surviving relatives. Funeral arrangements have not been made.

## DR. CARPENTER AT EXCHANGE CLUB

There was a good attendance at the noon day luncheon of the Exchange Club to hear Dr. Homer Carpenter, President of the Rotary, who was the guest of honor on last Thursday.

Dr. Carpenter brought a splendid message on public welfare and safety stressing particularly the "Safety Week" campaign on by the Rotary. He also planned for carrying on people through the agency of the school, the church and the press the important of working together for the success of the movement.

The Exchange Club pledged its cordial co-operation in helping the Rotary to put over this good work. A large delegation of Exchanges will attend the National Convention of Exchange Clubs that meets in Louisville next week.

## Little Girl Very Ill

Elizabeth Lewis, the little 3-year old daughter of Mr. and Mrs. Robert Thorpe is critically ill of spinal meningitis at the home of her parents on the Irvine road. The physician in attendance holds out very little hope for her recovery. The many friends sincerely hope to hear more encouraging news from the little sufferer and of her early restoration to health.

## EASTERN READY FOR OPENING

Teachers Arriving From Vacations To Begin Work—Many New Faculty Members

After five weeks' vacation, since the close of the summer term at the Eastern Kentucky State Normal School, teachers beginning to arrive to begin the new session with renewed energy and enthusiasm. During the summer needed repairs have been made and many improvements. A new book store has been installed in Roark building and as soon as possible a branch post-office will be in operation.

President T. J. Coates has been at the helm during the entire summer with only short business trips in this and other states. He is making extensive plans for the coming year which promises to be one of the greatest in the history of the institution. Much additional work has been caused by changing the division of the school year from terms to semesters, thus putting the school on a regular college basis. Just as soon as possible the four years of college work will be offered.

Dean H. L. Donovan has made inspection and lecture trips thru out the state during the vacation. Prof. W. L. Jarvis has made similar trips for the school.

Dean Marie Roberts has returned from a delightful tour of the west. She visited Dr. and Mrs. J. G. Crabbe at their summer home at Estes Park, Colo.

All faculty members and employees of the school are arriving from vacations. New teachers are here and looking things over. Mr. John Orr Stewart, of Dayton, Ohio, will have charge of the music department. He replaces Mr. Paul Barnes of last year. Miss Louise Green arrived from the week from on, D. C., to take her place in the Education department. She is a new position created by the Board of Trustees at its last meeting.

Miss Edith Leveque, of Blue River, Wis., arrived Thursday and will have charge of the 7th and 8th grades. Miss Ruth Woods, of Laredo, Mo., is here to replace Miss De Vries in the Home Economics department.

Students are already arriving. Two came in Tuesday. Both are from the extreme western part of the state. Neither knew when school began but they got on the train and took a long shot for an education. Several others have come but the bulk will not be here until Sunday and Monday.

The boys who are at Boonesboro in training for football, are not only practicing swimming and on a strict diet all the time, but are having a fine time, too. They state that they will be ready to meet Wesleyan September 30 at Winchester.

## Sexton Back From Boston

Col. John Sexton is just back from Boston where he attended the Red Men's big national convention and helped elect Col. Bob Crowe of Lagrange to one of the highest offices. He went with a delegation of 10 Kentuckians and says they were royally entertained everywhere they visited in the East.

### Will Found Written on Paper in Watch

Palo Alto, Cal.—The will of "Dad" Moulton, veteran Stanford athlete, was taken to San Jose for filing, and it is one of the strangest, in form, ever filed. Moulton cut a piece of paper into a circle that fit the back of his watch and wrote the will on it.

It reads:  
"September 14, 1921. At my death I will everything I have to my wife, Ida L. Moulton. I wish her to help Edwin, our adopted boy, if he deserves it."

### DODGERS TO HAVE FOOTBALL ELEVEN

The Dodge Brother's football eleven for boys 15 years of age and under has again been organized by Coach Frank Devore promises to be of the same rank as of last year when the kids defeated all by superb playing. Last year the Dodgers were outweighted in almost every game but through trick plays and headwork won game after game drawing crowds which would rival those of the high school teams. Clay Pearson, plunging fullback of last year, has been elected captain of the eleven. The boys out for positions are:

Ralph Ricci, "Speck" Young, Bass Whoeherry, Lucian McCord, Robert Dunn, Alex Black, Geo. Manpin, Dan Breck, Jr., Arthur Starbuck, Vernon Hardin, Robt. Walker, "Mammy" Jayne, Chas. Riley, Cecil Stanifer, Walter Ballard, Harry Blanton, Jr., Harry Bowman, Joe Chenault, Watson Clay, Paul Carson, Jephtha Thompson, Morris Cox, William Belue and William Buckley. The team will average 110 pounds and are ready to book games with anyone.

Mr. and Mrs. J. M. Clark and Mr. and Mrs. Earl Clark, of Cincinnati, are visiting Mrs. Bert Tudor on Big Hill avenue.

### KING NOT GIVEN CREDIT FOR ALL HIS SPEECHES

His Ministers Receive Praise for Most of Orations of British Monarch.

So many of King George's speeches are written for him by his ministers, as all the world knows, that he never gets credit for the good speeches he thinks up himself. People always say: "The speech was all right, but some one else wrote it for him." That is not always true. In everything that relates to affairs of state he speaks only through the mouths of his responsible ministers, and the "speeches from the throne," delivered when parliament shuts down, is far from a thrilling production. And it is not his.

But King George made a really good address the other day in London at the opening of the fine new building of the London county council. He dwelt upon the wisdom of the men of past ages in erecting fine buildings in their cities, and drew a picture of the necessity of the vested authority being adequately housed; an authority, he said, which would be neatly housed.

It would be difficult to emphasize too strongly the importance of efficient local government to the general wellbeing of the country, the king said, and the handsome edifice of the London county council should stimulate the development of that sense of citizenship so difficult and yet so important to cultivate.

His speech undoubtedly wrote this speech itself, and it has been most favorably commented upon; nevertheless he is getting little credit for it. The world thinks it is the product of some minister, whose mouthpiece was King George.

### WISCONSIN GIRL HEADS OWN EXPEDITION INTO JUNGLES

Miss Katherine MacGregor, aged twenty-six, of Waupun, Wis., recently arrived at New York from the jungles of the Andes, where she headed her own expedition, the first exploit of its kind. She made her way in the Andes mountains over trails never before trod by any white woman, and it is owing to her pluck and courage that she is alive and can look back upon her experiences. Falling down a cliff, killing a tiger, and such things, falls casually from her lips, and it is hard to believe she could have conquered such perils without turning a hair. The gypsy life has got her, though, and she plans to return again, and this time travel through Argentina.

Photo shows Miss MacGregor with an Indian case which she picked up on her way through primitive villages.

### LOOKS LIKE REAL BARGAIN

Million Dollar Postal Site Offered for \$31.21 Tax.

The new \$1,000,000 post office site in Syracuse, N. Y., is to be sold for unpaid taxes amounting to \$31.21, if advertisements published in newspapers by the city treasurer are the gospel truth.

The guardian of the city's finances inserts this paragraph in the annual tax sales advertisement:

"United States Government, Clinton, Genesee and Franklin streets, block 87, lots 1, 2, 3, 4, 5, 6 and 7, 64 by 397 by 281.5 feet. Vacant. Tax \$31.21."

Investigation shows that this springling assessment on the property amounts to \$25.46 and that the government has failed to pay. Uncle Sam never has paid taxes of that character and is not going to begin now. But the charge remains on the books. The city treasurer says the error is that of the assessors and the assessors fix blame for the blunder upon the treasurer.

### Chamberlain's Is The Door to Long Living

The men of eighty-five and ninety years of age are not the rotund, well fed, but thin, spare men, who live on a slender diet. Be as careful as he will however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.

### HERE'S PROOF

A Richmond Citizen Tells of His Experience

You have a right to doubt statements of people living far away but can you doubt Richmond endorsement?

Read it:  
Boone Burnett, 335 Estill ave., Richmond, says: "I have great confidence in Doan's Kidney Pills and keep them in the house all the time. They are the best medicine I can get to relieve me of weak kidneys. I sometimes have spells when my kidney gets so weak and irregular that I have to get up four or five times during the night to pass the kidney secretions. The secretions burned in passage and they were the color of brickdust. My back gets weak and I have an ache across the small of it. I am tired and weak across my hips when I get up mornings and if I stoop over my eyes become blurred and I can hardly see. I take Doan's Kidney Pills when I have these spells and they never fail to strengthen my kidneys."

tained with a dining at the Lafayette hotel, in Mrs. White's honor, the party afterward going to a theatre to see Richard Barthelmess in Sonny.

#### Boudinot-Johnson.

The numerous friends of the bride-elect here where she was formerly a teacher in the Model high school, will read with interest the following from the Courier-Journal: Mrs. Theodore van Rensselaer Boudinot, of Liberty, Ind., announces the engagement of her daughter, Miss Nancy Florence Boudinot to Mr. Clyde William Johnson, of El Paso, Texas. The wedding will take place in October. Miss Boudinot has made her home for two years with her sister, Mrs. Albert L. Terstegege and Mr. Terstegege.

#### Students' Music Club.

On Wednesday afternoon the Students' Music Club held their first meeting and elected the following officers: President Mose Stocker; vice president Margaret McCord secretary and treasurer, Alene Cotton. The subject of the afternoon was the Orchestra and its instruments. Edison records of the various instruments were played and comparison made of their differing tone qualities. The club will meet again the third Saturday in October.

#### Minter-Stagner.

The Presbyterian manse was the scene of a pretty wedding late Thursday afternoon, when Miss Daisy Minter, daughter of Mr. and Mrs. A. T. Minter, on 5th street and Mr. B. M. Stagner son of Mrs. C. E. Galloway were united in the holy bonds, Dr. R. L. Telford performing the ceremony. Both young people were reared in Richmond and their host of friends extended every good wish for their future. Only the immediate family were present for the wedding.

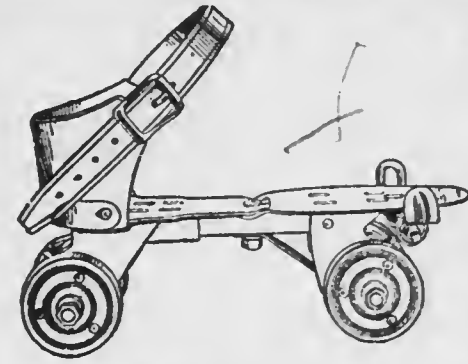

Mrs. Vardy Taylor who has been a patient in the Pattie Clay Infirmary has sufficiently recovered to return to her home in Irvine.

John Jayne left Friday morning for a visit to friends at Pewee Valley.

Dr. B. B. Montgomery and Mrs. Montgomery have been the guests of relatives in Lancaster.

Mr. Jerry Chambers and Mrs. H. B. Duncan are at home from a visit to their father, Clay Duncan in Missouri.

#### Club House Opened.

The formal opening of the new shelter house on the Richmond golf course Wednesday evening was one of the prettiest social events of the fall season. Mrs. A. H. Zaring chairman of the entertainment committee, Mrs. M. C. Kellogg, Mrs. W. O. Mays, Mrs. Homer Whittington and Douglas Chenault, who assisted, are receiving congratulations from all who attended, for the brilliant success of the most charming function. The decorations in golden red in blue vases made a very attractive setting for the party. Victrola selections were enjoyed and delicious sandwiches and coffee were served. About 125 came during the evening. Among the out-of-town guests were Mr. and Mrs. Bachelor of St. Joseph, Mo.; Mrs. W. H. Shanks, of Stanford, Mr. and Mrs. Barbee Betts, the Misses Betts and Mr. and Mrs. Taylor, of Winchester.

#### Mrs. White Entertained.

Mrs. George White, who recently concluded a visit to friends here, returning to her home in Washington City, was the honor guest at a number of social functions during her stay in Paris as the guest of Mrs. Cassius M. Cla. The following from the Patriot-Kentuckian will be read with interest: Mrs. George White of Washington, who was a guest of Mrs. Cassius M. Clay during her recent visit to the Blue Grass, was guest of honor at a number of social functions given by her host and others in Bourbon county and at other places. Mrs. Pattie Williams Lisle, of Lexington entertained at Shakertown Inn among the guests being Mrs. White, Mrs. Clay, Mr. and Mrs. Thomas Henry Clay, Mrs. Frederick A. Wallis, Mr. and Mrs. George Williams Clay, Mrs. Lisle and Mr. John Harris Clay. Mrs.

Samuel McGoffin was hostess at the Lafayette hotel in compliment to Mrs. White at a delightful six o'clock dinner served in the private dining room of the hotel. Mrs. Thompson H. Tarr entertained with an informal tea in honor of Mrs. White. The handsome home was beautifully decorated with garden flowers, and a tempting lunch was served. Mrs. Frederick A. Wallis entertained with a party at her home on 5th street.

### Public Now Prefers Vegetable Laxatives

Dr. Caldwell's Syrup Pepsin affords prompt relief in a natural way

THE public is constantly becoming more discriminating in its choice of things. Those subject to constipation try to learn what makes them constipated, and then avoid it. If constipation persists in spite of all their efforts they take the mildest, most easily tolerated laxative obtainable, and not a drastic physic that upsets them for days afterwards.

As over 10 million bottles of Dr. Caldwell's Syrup Pepsin are sold a year, a large proportion of the people of this country must believe that this mild vegetable compound is the proper remedy for them, and so it is. No need to take salt waters and powders that dry up the blood; coal-tar drugs in candy form that produce skin eruptions, or calomel that salivates. These drugs are "heroic measures," over-effective, weakening and gripping.

The best constipation remedy is the one that moves the bowels without shock to your system, and such a one is Dr. Caldwell's Syrup Pepsin. It is a vegetable

#### ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a trustworthy laxative that anyone in the family can use when constipated?" I urge you to try Syrup Pepsin. I will gladly provide a liberal free sample bottle, sufficient for an adequate test. Write me where to send it. Address Dr. W. B. Caldwell, 515 Washington St., Monticello, Illinois. Do it now!

compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and has been satisfactorily sold for 30 years. Unlike the harsher physics it does not produce a habit, and increased doses are not required; in fact, it so trains the stomach muscles that in time medicines of all kinds can be dispensed with.

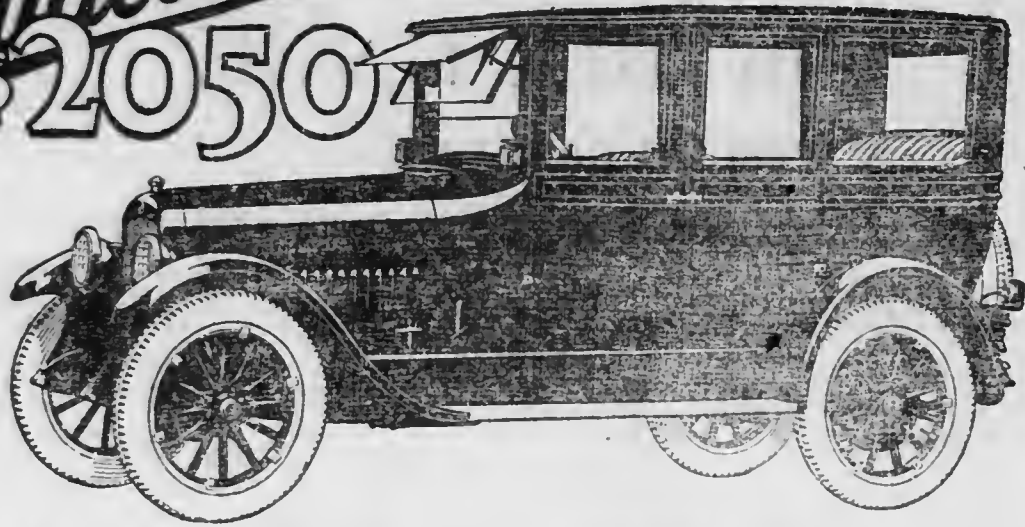

Many take a teaspoonful of Syrup Pepsin once a week as a health safeguard. Others use it only when required, as, for example, Mrs. J. W. Burroughs of Little Rock, Ark., who finds it equally valuable for herself and the children, and Mr. Enas S. Costa of Watsonville, Cal., whose family uses it regularly. Try Dr. Caldwell's Syrup Pepsin in constipation, biliousness, piles, headaches, sallow complexion, and to break up fevers and colds. A generous size bottle can be had at any drug store, and it costs only about a cent a dose!

THE NOBLEMAN FARMER

Count Ilya Tolstoy, the well known son of Leo Tolstoy, famous Russian author and philosopher, like his father believes that manual labor is the best stimulant for mental labor. Tolstoy is at present in America and likes this country so well that he has bought some land in Connecticut, where he has built a summer home, doing much of the work on the house himself.

He takes much pride in the fact that he is also an expert carpenter and automobile mechanic. There is no well near his new home, so he fetches water from a distance of a mile in a keg on his auto. Many people come from all parts of the world to visit the famous man.

TO TOIL IN PACIFIC ISLANDS

British Youths Plan to Develop Fruit Growing and Cattle Breeding Industries.

London.—Discouraged at the outlook in this country, dissatisfied with the after-war Britain, but actuated mainly by a love of adventure, about a dozen engineering students of Loughborough college have set out for an uninhabited Pacific island belonging to Ecuador.

Most of them are ex-officers. Among them is an author, D. L. David, who wrote "Yn Broi." He expects to find in the new settlement work for his pen as well as his hands. A 90-ton vessel is being made ready for the expedition.

The chief means of existence they hope to find by utilizing the resources of the island itself; the development of fruit growing and the breeding of cattle.

All hands will be required to work, although climatic conditions, it has been ascertained, are ideal, and all they will need for food can be obtained without working. If they are content just to "loaf and invite their souls."

Their destined home, the adventurers say, is about 500 miles from the Panama canal.

ROOSTER'S CROW SAVES MAN

Guides William Warner, Lost in Pennsylvania Cranberry Swamp, to Farmhouse.

Stroudsburg, Pa.—The crowing of a rooster saved the life of William Warner, who became lost in a cranberry swamp near Tannersville. Warner wandered for a long time and finally was caught in the soft, boggy land up to his waist. After he succeeded in dragging himself out and got on to firmer land he was so tired and weary that he realized that he might again be injured. Hardly daring to move, he heard the rooster crow and followed the sound until he reached a farmhouse.

## PROSPECTS FOR LEXINGTON

Lexington has been the scene of many brilliant race meetings, but if the quaint old southern city is blessed with good Kentucky sunshine from October 2 to 14, a meeting will be staged which will eclipse all previous ones for the progressive management is offering more money than ever before and is making this, the 50th annual meeting the greatest in the history of the association.

Approximately \$90,000 will be raced for and the program will include the \$7,000 Futurity for two-year-old trotters, the \$14,000 Kentucky Futurity for three-year-old trotters, \$5,000 Transylvania, \$3,000 Walnut Hall Cup, \$4,000 Castleton and various other rich events including the May Day (\$13,000) for two-year-old trotters, a new event. This will be the richest of the year for two-year-old trotters.

Then in addition to the races, there are possibilities of several record breaking performances. Peter Manning 1:57 3-4, who de-throned Uhlman 1:58 as king of trotters, at Lexington last fall, is being brought along carefully by Thomas W. Murphy, with the idea of shattering his own record while Arion Guy, 4, 1:59 1-2 that during the 1921 meeting gained the distinction of being the world's fastest four-year-old trotting colt, has been showing by his recent work that he will be ready for an assault on his own record. Then, too, that wonderful trotting mare, Nedda 1:59 1-4, the most recent addition to the list of two-minute trotters will undoubtedly be on the card to try at the trotting record for mares—Indianapolis Horseman.

TAXES are now due and the tax books are ready. E. Deatherage, Sheriff. 223-eod

## GEESSE DOT ISLE LIKE SNOW FIELD

Strange Wonders of North Reported by Explorer.

### FROZEN IN FOR 274 DAYS

MacMillan Sails Over Miles of Sea Now Shown as Land on Maps—Discovers New Islands and Flowering Plants Among Ice—Lowest Temperature Recorded Was 60 Degrees Below Zero, Fahrenheit—Discovers Land of Uncharted Lakes.

New York.—Arctic islands so white with geese that the land—625 square miles—appears as if covered with snow, are reported by Donald S. MacMillan, Arctic explorer, who recently returned to civilization after being frozen in the ice for 274 days.

Relating his experiences Mr. MacMillan said: "From November 9, 1921, to August 1, this year, we were frozen in solid in a good harbor just south of Trinity Islands. I named it Bowdoin, after my vessel, and the place where we pulled in for the winter and made explorations will be known as Bowdoin harbor on the maps of the future.

"We made a quick run last summer in the Arctic circle without encountering a single pane of ice. The shores of Melville peninsula were blocked with heavy ice, 40 feet thick, and we could get no nearer than 30 miles. We had to retreat southward, but our effort was by no means wasted. We discovered two new islands.

"In attempting passage east of Spicer Island we reached a point 150 miles north of the Arctic circle. From this point to Fury and Hecla Strait, my objective, would only have been a 12-hour run under favorable conditions. But the tides were too strong, and the ice harder was impenetrable. Again the Bowdoin went around.

Sails Sixty Miles on "Land." "We had our compass southward and made some important discoveries for the purpose of cartography. According to the maps we carried we should have struck land on this course but we failed to do so. We sailed over an area indicated as land on all the latest and most authoritative maps and, indeed, 15 miles into a hypothetical interior.

"More strong tide rips and shallow water forced us to retreat again. We estimated that, according to the map in our possession, we must have sailed in the Bowdoin over 50 miles of land. "At this juncture we sighted big herds of walrus, beyond question the last remnant of the great walrus herd to be found in the North today.

"Finally we made a harbor called Cape Dezhnev. It was named 20 years ago by an explorer named Fox. Here we found a large settlement of Eskimos.

"The Eskimos asserted that there were no safe winter quarters along that coast, and strongly advised us to give up plans for the establishment of winter quarters near the magnetic North pole, which I was reluctant to do.

Take Eskimos' Advice. "We selected the harbor I have named Bowdoin after the most pains taking examination of every bay and inlet along the coast. On November 9 we were settled for the winter.

"We were not idle at Bowdoin harbor. Under the superintendence of Professor Goddard of Dartmouth college and Carnegie Institute, we made systematic observations of terrestrial magnetism. We took meteorological observations throughout the year. The lowest temperature recorded was 60 degrees below zero, Fahrenheit. For two months we took tidal observations.

"Moreover, my men with dog teams traveled more than 2,000 miles, going north of Cape Dezhnev, south and east to Lake Barrow and inland to Amudlak lake, a body of water which had never hitherto been explored by white men.

"We found the land very different from the current delineations on the latest maps. Nearly all points are incorrect, astronomically.

"The waters of Chukchi inlet reach nearly to Fox channel. We discovered a land of uncharted lakes, the breeding place for innumerable ducks, geese, swan and shore birds. Here also lay the hitherto undiscovered home of the lesser snow goose and the blue goose.

"Eskimos gave us vivid descriptions of an area of about 625 square miles, so white with geese that the land appears as if it were covered with snow.

**Democratic Prosperity vs. Republican Disaster**

The estimated wealth of the United States when President ten months under Republican rule.

Since the Republican party was voted into power in November, 1920, the American farmers alone have suffered a loss of nearly \$30,000,000,000. Wilson went into office in 1913 was \$185,000,000,000; it increased to \$300,000,000,000 in eight years of Democratic rule—a gain of \$115,000,000,000. The present wealth of the United States is \$225,000,000,000—a loss of \$75,000,000,000 in fit-

**Some Republican Broken Promises**

The Republicans promised the country PROSPERITY; they have given it ADVEKSTITY.

They promised to stimulate agriculture and business; they have given an industrial panic and destroyed our foreign markets. Foreign trade declined from \$13,500,000,000 in 1920, to near \$6,000,000,000 in 1922.

They promised to reduce taxes; they have shifted taxes of the multi-millionaire and profiteering class to the smaller taxpayers without lifting taxes or reducing them. Repeal of the Excess Profits tax relieved the Big Interests of paying \$450,000,000 in taxes; reduction of the higher surtax relieved the of paying \$61,500,000.

They promised to reduce the high cost of living; they have given a Profiteers' tariff bill which increases the high cost of living, and makes the farmer pay \$5 on everything he buys for each \$1 of "protection" he gets.

They promised to reduce the expenses of the government; they have increased the expenses of running the various departments of the government (1923 budget), three years after the war \$536,000,000 compared to 1915, three years before the war, with an estimated deficit of \$500,000,000 in addition—or \$1,000,000,000 increase.

**WORLD'S SUGAR OUTPUT DROPS 500,000 TONS**

Yield for 1923 Estimated at 17,000,000 Tons Against 17,490,000 in 1922.

Sugar production for the year 1923 will be nearly 500,000 tons less than for 1922. It was estimated by the Commerce department in a survey of the world situation.

World production for 1923 was put at 17,000,000 tons, compared with 17,490,000 tons in 1922, when the consumption was estimated at 18,360,000 tons and the carry-over into 1923 was put at 830,000 tons, compared with the carry-over of 1,700,000 tons from 1921 into 1922.

The abnormal surplus of Cuban sugar existing last January, the department declared, has apparently been absorbed, and in addition the normal amount of the new Cuban crop has been taken. Revised estimates of world production for 1922, the department added, are 1,600,000 tons over the earlier estimates, owing largely to the unexpected size of the Cuban crop.

"But this year's consumption," the department stated, "also has exceeded all predictions, both in the United States and in Europe, and even with the revised crop figures for 1921-22 the carry-over for 1922 will be not far from normal. The gradual rise in price of Cuban raws to the present level, about double the low figure of 1.75 cents at the end of 1921, has no doubt been due to replenishing of invisible supplies and increased consumption, and in particular to European demand."

Willmore Kendall, Jr., thirteen years old, who was admitted to the freshmen class of Northwestern university. Willmore's greatest ambition is to become a newspaper man. He started high school at the age of nine, and is the youngest student ever to enroll at Northwestern university.

**DESTROY U. S. MONEY DIES**

Greatest Precaution Marks Annual "Smash-Up" at Mint.

At the United States mint at Philadelphia are made all the coinage dies and on the last day of each year all these dies are destroyed. A die that mints the one-cent pieces costs just as much as the one that turns out the \$20 gold piece.

Each die is a round piece of steel three inches long, sloping at the top to the size of the coin it is to stamp, and each, of course, bearing a different design according to the coin it is to produce. But in one particular they are all alike—each must bear the same date, that of the current year.

On December 31 all these dies, from double eagles down to the smallest gold pieces, and from dollars to dimes in silver, as also those for nickels and cents, are taken to the mint blacksmith shop, and in the presence of the superintendent of the mint, the coiner and the assayer are hammered out of shape, and all semblance of the stamp destroyed with sledge on an anvil.

New dies are then put into use bearing the date of the new year. Thus no government coin can be stamped in the current year bearing the date of any previous year.

**COW WALKS LIKE KANGAROO**

Animal Has Only Two Legs and Master Has Named Her "Minus."

She's a cow, she walks upright, she has only two legs in place of the usual four—and her master has appropriately named her "Minus." "Minus" is the property of Theodore Karcher of South Pasadena, Cal. Born that way, "Minus" has never traveled on more than two legs—and therefore does it with cheerful dexterity. However, her upright position is somewhat of a disadvantage in pasture feeding, and it is said that Mr. Karcher is now hunting for a wooded field where "Minus" can lunch off the trees in comfort.

The corner stone of the new Methodist church was laid in Versailles Sunday.

**BERLIN MAGNET FOR TOURISTS**

Rubberneck Wagons Are Popular in German Capital.

**UNTER DEN LINDEN IS LIVELY**

Famous Thoroughfare Very Much Changed Since the Days When the Kaiser Reigned—German-Americans There in Great Numbers to Show the Fatherland to Their Children and Grandchildren—Most of Criticism Comes From Tourists With German Accent.

"Rubberneck wagon" has become a standard German word and sightseeing tours about Berlin are supplied with all American trimmings.

"This is the German white house, the home of President Ebert," the conductors announce as they pass along Wilhelm street.

When the touring cars cross the bridge over the Spree in sight of the lock which regulates the height of water in the highly-canalized stream, the conductors shout: "It's just like the locks on the Panama canal, but not quite so big."

**Pedestrians Speak English.**

Unter den Linden is now busier than the avenues of Coney Island on a bright day, and half of the pedestrians are speaking English. The touring cars all start from Unter den Linden. Every two hours a flotilla of auto busses moves out of the famous boulevard loaded with tourists bent on getting a birdseye view of the capital.

All guides speak both German and English. At least that is what the placards on the auto busses say. But the tax on the voices of the guides has been so great during the summer rush that many of them are too hoarse to be understood in any language.

Unter den Linden is no longer the quiet, dignified thoroughfare it was in Imperial days. If the former kaiser were to quit cutting trees at Doorn long enough to visit his favorite thoroughfare he would scarcely recognize it.

Miscellaneous traffic now moves along the boulevard and cars and cabs are parked everywhere. Cafes have extended their crowds far out on the sidewalks. Vendors of postcards are on all sides, and more ivory and amber ornaments are displayed than can be seen on the boardwalk at Atlantic City.

**Center for Tourists.**

Blind soldiers led by police dogs and crippled soldiers in invalid chairs offer matches for sale from Brandenburg Gate to the royal castle on the Spree. Flower-sellers, fruit vendors and book peddlers have found places along the boulevard. Cabarets which advertise ballets, operas, and their warm weather costumes, and moving-picture houses have flocked into Unter den Linden. It is the home of the tourist, and all the visitors who want to get their money's worth are centering there.

English is spoken on Unter den Linden about as generally this summer as it was on the Champs Elysees when the United States army was still in France. But the majority of the tourists are women, and many of them speak English with a decided German accent. German-Americans are flocking here in great numbers to show the fatherland to their children and grandchildren, and it is amusing to hear the comments of the old folks who haven't been in Germany since they were children.

The standard topic of conversation among tourists is the falling mark. Many of them are spending marks which they bought in the United States when the idea was still prevalent in the world that the mark was a good investment.

"I paid 8 cents apiece for my marks and now I could buy them for one-eighth of a cent apiece," one old woman remarked sadly to a group of younger women. "I want to tell you I am off speculation in European exchange for all time."

Nearly all the criticism one hears of Germany and the Germans is from tourists with a German accent. Police regulations and passport requirements do not seem half as galling to the native-born American tourists as they are to those of German origin. At least they do not talk as much about their troubles.

**WEDDING BELLS STILL CHIME**

Aged Man Takes Out a Marriage License.

Wedding bells still have a charm for William C. Axel, eighty years of age, a retired farmer of Hustisford, Wis., who is the oldest man ever to apply for a marriage license in Dodge county. His bride is Mrs. Emelia Degau, sixty-four years of age, a widow, who came to this country from Germany about a year ago.

Axel is one of the oldest residents of Dodge county, coming to Hustisford from Germany when a child at a time when Indians occupied the country adjacent to Rock river.

Axel cast his first presidential ballot for Abraham Lincoln in 1864, and has never missed voting in a national election since. He heard Stephen A. Douglas when the "Little Giant" spoke from the rear platform of a railway coach at Woodland in the campaign of 1860.
